PROJECT

AIRBNB 07/2022-11/2023

- In the role of a Front-End Developer, I created an visually appealing website for users that was focused on travel and hotel bookings in popular tourist destinations in Vietnam. Additionally, I handled APIs using self-generated data to effectively visualize the data for users.
- Full function for e-Commerce Site including product review, rating, authentication, login, admin management, booking.
- ·Complex states management with Redux toolkit.
- ·HTML, CSS, TypeScript, React, Redux Toolkit, Styled Components.
- [Demo](#) | [GitHub](#)

API-AIRBNB 09/2023-11/2023

- As a Back-End Developer, I had a significant a key role in the development of a RESTful API using ASP.NET and Azure for API-AIRBNB. This project aimed to provide scalable and secure APIs to facilitate data exchange and integration between different components of the system.
- Participated in code reviews and resolved issues, contributing to the overall quality of the project
- ASP.NET, AZURE
